Forecast for Thursday 20 May 2021

Weather: Rather cloudy with bright spells and showers during daylight hours, falling as sleet or wet snow at times over the highest summits. The drier and brightest conditions expected through Torridon.

Chance of cloud free mountain/hill tops above 800m: 50%

Visibility: Moderate in any showers, otherwise mostly good or very good lower down. Occasionally poor or very poor at height. Occasional or extensive cloud, base around 900m, but could be lower around the Ben Wyvis area and Assynt. Highest base possible through Torridon and perhaps Skye, summits clear at times.

Met Office Aberdeen Meteorologist's View
Temperatures around freezing over the highest summits with a significant wind chill as winds strengthen.

Forecast for Friday 21 May 2021
Weather: Cloudy with outbreaks of rain overnight and during the morning, persistent and heavy at times and wintry over the summits. Some drier and brighter conditions should develop in the afternoon and evening with cloud lifting near or above the summits, although still some showers around, again wintry over the summits. Feeling cold at height with a severe wind chill.

Maximum wind: North or Northeast 25 to 35mph gusting 50mph with a severe wind chill.

Chance of cloud free mountain/hill tops above 800m: 40% becoming 80% through the afternoon and evening. Extensive cloud base around 600m, rising 900 to 1200m in the afternoon and evening.

Visibility: Moderate in rain or showers, otherwise good or very good lower down. Poor or very poor at first over the tops, but becoming good through the day.

Temperature: **Glens:** Plus 5 rising to 10 Celsius
At 800m: Plus 2 to 4 Celsius
Freezing level: Around the summits.
